THE STORY OF BRAČ CARVED IN FAITH

Welcome to the world of Atelier Brač Kamen, where centuries-old tradition of processing Brač stone meets deep spirituality. Our products are not just objects; they are a testimony of faith, art and passion, carved into the most precious stone of the Mediterranean. Brač stone, known for its exceptional whiteness and durability, has adorned palaces and churches around the world throughout history. We, at Atelier Brač Kamen, continue this noble tradition to offer you unique sacred products that transcend the material and touch the heart.

TIMELESS CRAFTSMANSHIP

The history of our stone is a history of power and eternity. When the Roman Emperor Diocletian was looking for the most precious material to build his magnificent palace in Split, his architects chose Brač stone. This same "white gem", which has defied time for centuries in the heart of Dalmatia, is today the fundamental building element of all creations by Atelier Brač kamen d.o.o.

1000 YEARS OF TRADITION

At Atelier Brač kamen d.o.o. we do not just process stone; we revive a legend that began to be written more than 1700 years ago. Our company is headquartered in Pučišća on the island of Brač – a place known worldwide as the cradle of stonemasonry culture and the home of white precious stone.

OUR PHILOSOPHY

We believe that every religious object should be not only aesthetically perfect, but also a lasting symbol of faith. That's why we make each piece by hand, with immense precision and respect for the material.
